

## CANCER CERVIX SCREENING CAMP

On World Cancer Day (February 4<sup>th</sup> 2021) a Screening Programme was initiated at Aarupadai Veedu Medical College Hospital for Prevention of Cancer Cervix, Breast, Oropharyngeal Cancer and Prostate by Department of Obstetrics and Gynecological, General Surgery, Dentistry and urology.

In this programme, around 40 people (20 Males & 20 Females) were screened for Cancers. Basic Blood Investigations were done, followed by Screening for Cancer Cervix performed by PAP smear in a detailed Proforma. Screening for Cancer Breast was done by Examination and ultrasound breast. Males were screened for oropharyngeal Cancer by Examination and Cancer prostate by blood investigations. Counselling consultation was given for all the participants.

Awareness talk was given on the need for screening for cancer cervix and cancer breast among the female participants, and they were motivated to disseminate the information.

The programme is planned to continue every Thursdays for the benefits of Public, as an initiative to fight against Cancer.
