### **NATIONAL SERVICE SCHEME**

#### **MASS TREE PLANTATION – NOVEMBER 2017**

On November, 2017, Aarupadai Veedu Medical College & Hospital, Puducherry, successfully completed the event of Tree Plantation under the National Service Scheme and Environmental Science department at college campus. Trees are the foremost source for producing the oxygen in environment. They help to reduce the level of CO<sub>2</sub>. As we all know that the whole world is facing the problem of global warming and to recover from such problem planting trees is become one of the most important aspects today.

We had our respected Chief Executive Officer Dr. M.R.Prakaash, and Dean Dr. R. Maharaja for the inauguration, they also took part in the event and planted trees. 50 saplings were planted in this month. Students showed great intensity in planting them and they know their hard work would recharge groundwater, prevent soil erosion, control pollution and yield more benefits. All were happy and experience pleased after the tree plantation occasion, in light of the fact that it truly feels incredible to do positive for the nature.
