STUDENT NAME: ARBAB MOHAMMAD SHAIK

EVALUATOR: DR. ERIC LAI

**COURSE: SURG 913 – PLASTIC SURGERY (VISITING MEDICAL STUDENT
ROTATION)**

ROTATION DATE: 11/21/2022-12/16/2022 ISSUE DATE: 12/16/2022

Arbab Mohammad Shaik performed phenomenally in his plastic surgery rotation here at University of Kansas Medical Center. Despite being a medical student he was capable of operating at the level of a first year plastic surgery resident in terms of both surgical hands-on and clinical care. His preparation for daily cases exceeds some of our medical students applying to plastic surgery. He routinely asked for feedback and appropriately incorporated them in his actions. The faculty and the residents enjoyed working with Arbab describing him as a candidate with impressive knowledge, drive and passion for plastic surgery. The residents were of the opinion that he would make a fine plastic surgery resident regardless of the country he decides to pursue his residency training in.
